

Return Idler Basket

Designed to prevent malfunctioning Return Idlers from falling on workers and equipment below.

Easy to Install

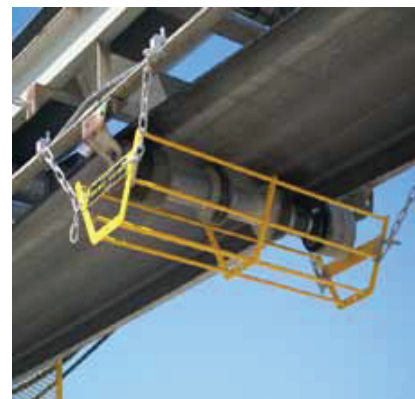

- Large openings eliminate build-up
- “Snaps” on easily with beam-clamp assembly
- No welding or cutting required

Easy to Maintain

- Light weight design allows one person to handle guard
- “Snap” guards off to the service idlers or belts

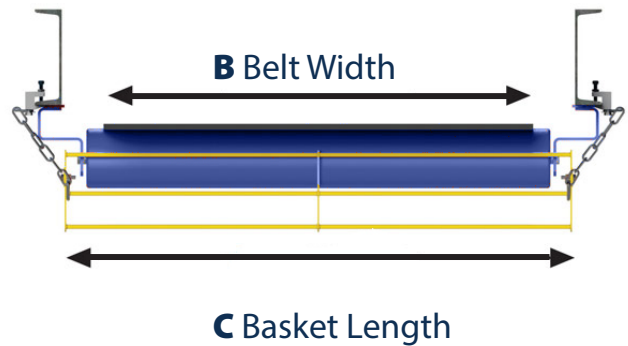

Built to Last

- Heavy duty steel construct eliminates warping and bending
- Powder coated for increased durability
