

SEALER, STABILIZER, & EROSION CONTROL

DustTarbt Pile & Road Haul Sealer

DustTarbt protects against rain and wind erosion and helps control fugitive dust from stock piles, haul roads/shoulders, and ash waste piles.

Locations for Use

- Stockpile
- Haul Sealer
- Treated Material
- Storage stockpiles
- Haul road dust
- Construction sites

Treated Material Examples

- Coal
- Coke
- Limestone
- Biomass
- Ash
- Any material stored in piles for long lengths of time

FEATURES & BENEFITS

- Non-oil based, ecologically safe
- Will not pollute underground water supply
- Mixes & cleans easily
- May utilize own equipment for application
- Excellent penetration characteristics for a thick, resilient, elastomeric film that creates a non-cracking crust
- Easy application and clean-up
