

### SIMPLE INSTALLATION

# Simple Slide Return

Benetech's Simple Slide Return Rollers allow for safe and simple installation and maintenance while providing optimal belt support between the discharge point and the tail pulley.

### FEATURES

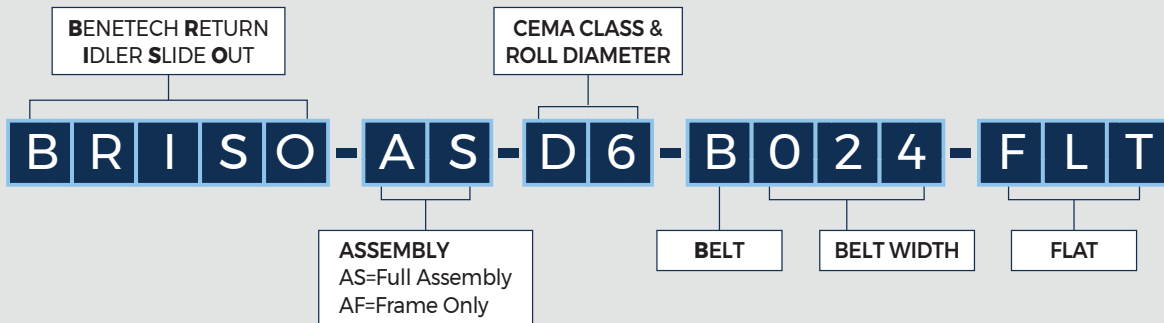

- Available in standard or wide base frames
- Comes in any belt width
- For purchase as frame alone, or with rollers
- Can be customized to fit any idler manufacturers' rollers

### KEY BENEFITS

- Can be serviced by one person from one side of the belt
- Rollers support the belt to prevent stretching, sagging, and failure
- No need to raise belt to replace roller
- Reduces safety risks and allows quick and easy roller removal or maintenance
